

Support & FAQ – Legends AI

Last Updated: July 2025

Developer: AEY on Apps (aeyonapps@gmail.com)

Thank you for choosing Legends AI — your space to ask inspiring questions and interact with legendary personas. Below you'll find answers to common questions about how the app works, what features are available, and how to get the most out of it.

How is my data stored?

All your question history and saved responses are stored locally on your device. Legends AI does not use cloud storage or external servers. Your data never leaves your device.

How do I ask a question?

Simply select a legend or create your own, then type or dictate your question. You can explore fun, thoughtful, or deep answers anytime.

Can I view my past questions?

Yes. All your previous questions and answers are saved under History, which you can access anytime. You can also delete or share individual entries if you wish.

What types of questions can I ask?

You can ask about:

- Science & discovery topics
- Art, music, and performance
- History and philosophy
- Fictional stories and ideas
- Custom creative prompts

Feel free to ask anything — legends are here to inspire!

What premium features are available?

The app is free to use with basic limits and ads. You can unlock additional features by visiting the Market section inside the app:

- Unlimited Questions: Ask as many questions as you like, no daily limits
- Remove Ads: Enjoy an ad-free, uninterrupted experience

Can I use the app offline?

You can view your history and interact with previously generated answers offline. However, asking new questions requires an internet connection.

How can I get help or contact support?

You can reach out to us anytime at:

aeyonapps@gmail.com

We're happy to assist with questions, feedback, or issues.

✔ Summary

Legends AI was built with your privacy in mind. No accounts, no tracking, no external storage — just inspiring conversations stored safely on your device.
